

SEARCY

A small town composed of people with big hearts, Searcy is a city brimming with community and connection. Filled with small businesses, parks, historic sites, and even a university, there is something for everyone in this 18.41 square mile radius. With an estimated population of 23,000, the town has come a long way since it was first founded in the 1830s. While the Little Red River and White Sulphur Springs first drew people towards the town, Searcy currently draws in a crowd of avid fishers, academic students, young families, and entrepreneurs. From the various parks and recreational services offered, to a downtown area where one can contribute to the infamous Art Alley, Searcy is a town that has a lot to offer. A small town with forward thinking, Searcy is special because of the people who inhabit it, and there are all sorts of avenues of getting plugged in.
